

DTB AV FISTULA NEEDLE SETS

World Class Quality

FISTULA NEEDLES

To complement dialysis care requirements, DTB offers high quality fistula needles. Focus on safety, patient comfort, ease of use and optimization of treatment outcome.

DTB offers numerous configurations of fistula needles, to be compatible with any clinical requirement.

Our fistula needles can be sterilized by ETO or gamma rays.

In routine dialysis practice, it is important to choose the appropriate fistula needle according to the desired extracorporeal blood flow rate and the available access flow rate in the fistula in order to achieve the optimum balance between patient comfort and dialysis efficiency.

- > Ultra thin wall and ideal bevel shaped cannula
- > Clear kink resistant tube
- > Textured wings provide a secure grip
- > Needle retracts into the safety guard
- > Color coded, textured wings provide secure grip
- > Smooth silicone layer

DTB AV FISTULA NEEDLE SETS

MODEL	GAUGE	NEEDLE LENGTH	WING	TUBE SPEC	SAFETY SHIELD
DTB-AVFNS-01	16G	25 ± 2mm	Fixed	ID 3.2*OD5.0mm	Without
DTB-AVFNS-02	16G	25 ± 2mm	Rotatable	ID 3.2*OD5.0mm	Without
DTB-AVFNS-03	16G	32 ± 2mm	Fixed	ID 3.2*OD5.0mm	Without
DTB-AVFNS-04	16G	32 ± 2mm	Rotatable	ID 3.2*OD5.0mm	Without
DTB-AVFNS-05	17G	25 ± 2mm	Fixed	ID 3.2*OD5.0mm	Without
DTB-AVFNS-06	17G	25 ± 2mm	Rotatable	ID 3.2*OD5.0mm	Without
DTB-AVFNS-07	17G	32 ± 2mm	Fixed	ID 3.2*OD5.0mm	Without
DTB-AVFNS-08	17G	32 ± 2mm	Rotatable	ID 3.2*OD5.0mm	Without
DTB-AVFNS-09	15G	25 ± 2mm	Fixed	ID 3.2*OD5.0mm	Without
DTB-AVFNS-10	15G	25 ± 2mm	Rotatable	ID 3.2*OD5.0mm	Without
DTB-AVFNS-11	15G	32 ± 2mm	Fixed	ID 3.2*OD5.0mm	Without
DTB-AVFNS-12	15G	32 ± 2mm	Rotatable	ID 3.2*OD5.0mm	Without

FEATURES	BENEFITS
Ultra thin wall and siliconized	Smooth penetration
Perfected Sharpness and Surface	Gentle Puncture
Special process on Blade	Reduced pain and Skin Damage
Medical Grade PVC	Minimizes side effects on health
Color Coded System	Ease ID of Gauge Size and needle position
Prime Luer Lock connector w/wing	Secure connection to tubing set
Sterilized by Gamma Ray or ETO	
CE Certified	

SETTINGS	
NEEDLE SIZE	15G, 16G or 17G
NEEDLE LENGHT	25mm (1 inch) or 32mm (1 ¼ inch)
BLACK EYE	With or Without
WING	MinimiFixed or Rotating
CLAMP	Red, Blue or White
