

## APPSWIPE® CLEANROOM WIPER BALANCE ECONOCLEAN®

Pharma applications

## BALANCE ECONOCLEAN® CLEANROOM WIPER,

Cleaning wipe for cleanroom and sterile area for the pharmaceutical industry.

### FEATURES

- Fiber Blend (55% cellulose and 45% Polyester)
- Non-woven, Hydropressed construction with excellent bi-directional resistance
- Sterilizable
- Excellent Absorbency
- High Cleaning

### APPLICATIONS

- Use where absorbency, cleanliness and economy are required
- Cleaning of work surfaces and production equipment
- Ideal for spill recovery
- Ideal for particle removal without leaving traces
- General use in areas Powders, Dragees, Tablets, Microbiology, Medical Equipment etc.

### ADVANTAGES OF APPSWIPE CLEANROOM WIPERS

Low levels of particle and fiber release. Excellent resistance due to polyester fibers. Excellent absorbency due to natural cellulose fibers. Compatible with sterilization processes. Low levels of Extractables.

### PRODUCT DESCRIPTION

BALANCE ECONOCLEAN® 45% polyester fiber, which combines the high absorbency of natural fibers with the high resistance of polyester fibers to create a cloth with the perfect balance of high absorbency, low particles and high resistance at the best price. Processed and packed under strict controls in a clean room to ensure the highest quality and compatibility for use in cleanrooms and sterile areas.
